

Anderson Homes Recognized by J.D. Power and Associates

Triangle Homebuilder Receives Top Recognition For 3rd Consecutive Year

Cary, NC, December 4, 2006 - Anderson Homes has received a #1 ranking in the Raleigh-Durham Market for Least Number of Defects per 100 Homes in 2006. This is the third consecutive year that Anderson has received a top recognition from J.D. Power and Associates in this category. In 2005 Anderson placed 2nd, and in 2004 and 2006 they were recognized as the top ranked builder for fewest defects.

Over the past year, Anderson has swiftly moved to the forefront of home innovation and energy savings performance with its breakthrough Peak Performance Home. Anderson Homes will utilize all information gained from consumers in this year's J.D. Power and Associates Customer Satisfaction Survey to improve upon the services they deliver. They are very proud to maintain such high recognition for the fewest number of defects, which for the consumer means minimal home warranty and service requests following the closing of a Peak Performance Anderson Home.

Founded in 1980, Anderson Homes is the Triangle's largest locally owned and operated homebuilder. In 2006, the company was honored as the Carolina's only ENERGY STAR® Partner of the Year.
